

ZENITAR 2.8/21

HIGH APERTURE LENS

ZENITAR 2.8/21

High aperture compact lens with a normal focal length is designed for mirrorless cameras with/without a rangefinder. The lens has an M-mount to be used with Leica cameras. It also can be mounted on various cameras through adapters. The wide-angular field and corrected distortion allow to use the lens for shooting landscapes and interiors in low light.

The mount is compatible with the bayonet type:

Leica M

Specifications:

Focal length	85 mm
