ZENITAR 0.95/50

One of the most high aperture lens designed for mirrorless full-frame cameras. Ultra high aperture allows to take pictures in low light without using a tripod and to achieve a strong bokeh effect that is so important in art photography

The mount is compatible with the bayonet type:

Sony E

Specifications:

Focal length	50 mm
Angular field	44 °
Lens groups/elements	8/9
Max. aperture	0,95
Min. aperture	16
Aperture blades	14
Min. focusing distance	0,7 m
Filter mounting size	72 mm
Weight	1200 g
Diameter x length (from mount)	85,5 x 117,5 mm
