ZENITAR 1.5/50

The retro styled high aperture lens in retro style for mirrorless full-frame cameras. The high aperture allows to take pictures in poor light conditions without using a tripod and to get a blurred background effect that is so important in art photography

The mount is compatible with the bayonet type:

Sony E

Specifications:

Focal length	50 mm
Angular field	43 °
Lens groups/elements	3/7
Max. aperture	1,5
Min. aperture	22
Aperture blades	13
Min. focusing distance	0,7 m
Filter mounting size	40,5 mm
Weight	287 g
Diameter x length (from mount)	61,5 x 47,6 mm
